

# My Story

*Since I have been at The Trinity house, I have gotten a better job, car, medical insurance, clothes, food, a Christian lifestyle, and life skills that will last my lifetime.*

**CLORETTA**

Single mom and her son

**I**n December 2007, I was faced with a problem and I needed somewhere to live. I needed a place that would allow me to care for my son. Also, this place had to be somewhere that child welfare services would approve of because I needed to comply with all the regulations of child welfare services.

While looking for rooms to rent, sober living houses, and shelters (anything I could find that could fit my situation), I read an ad that said something about women with children that needed a place to stay. I kept reading and noticed the location was in Chula Vista. I was so happy because my job was in Chula Vista, and especially since I had no car and all my appointments were based in the South Bay.

I called the number and a woman on the other end of the phone told me to come down the next day. The woman told me they had a room for me. I was so happy. I just started praising God.

The Trinity House is a place to get your life in order. It has given me and my son a clean place to stay and a chance to interact with other women and children. At The Trinity House, I have learned how to keep my personal business in order and how to achieve success for me and my son.

Since being here, I have gotten a better job, car, medical insurance, clothes, food, a Christian lifestyle, and life skills that will last my lifetime. I'm very grateful for what The Trinity House has done, and is still doing, for me and my son.
